NIGHT MUSIC

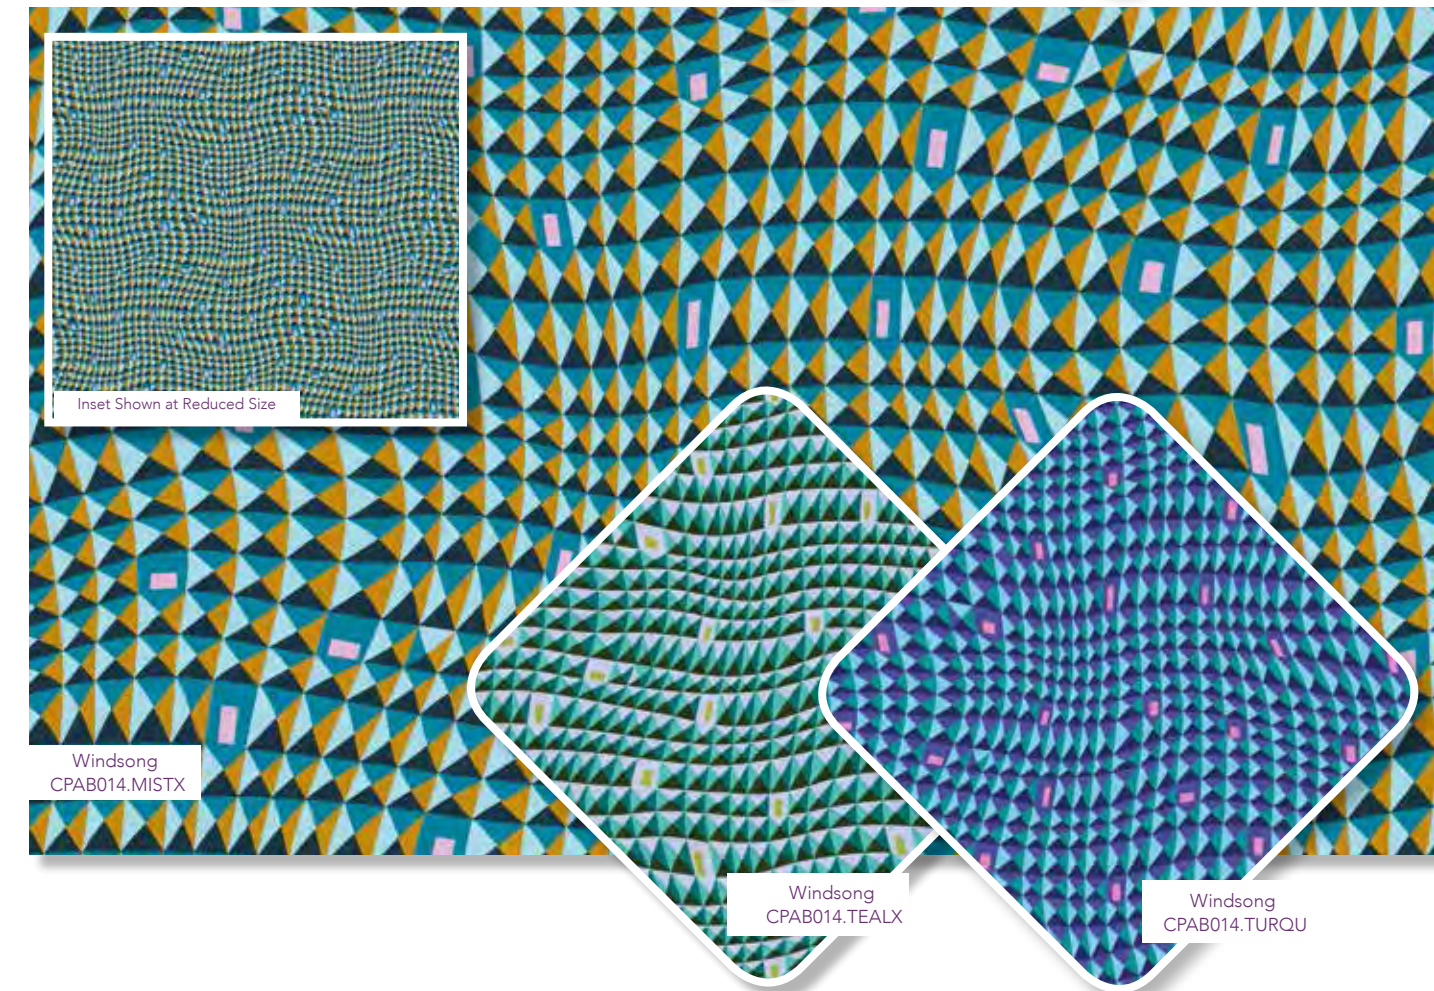

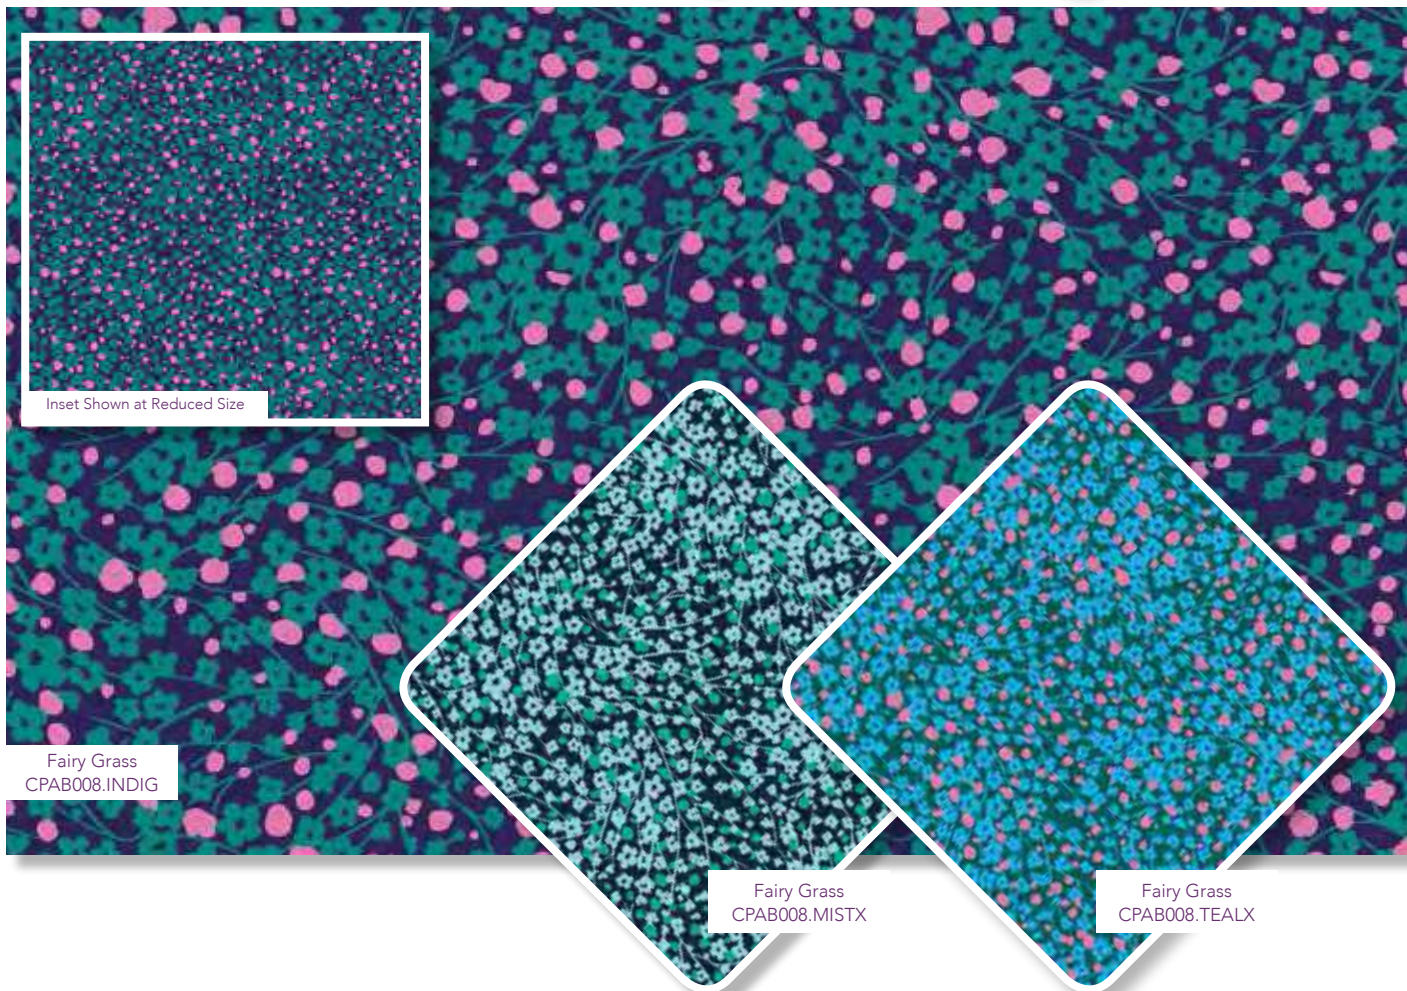

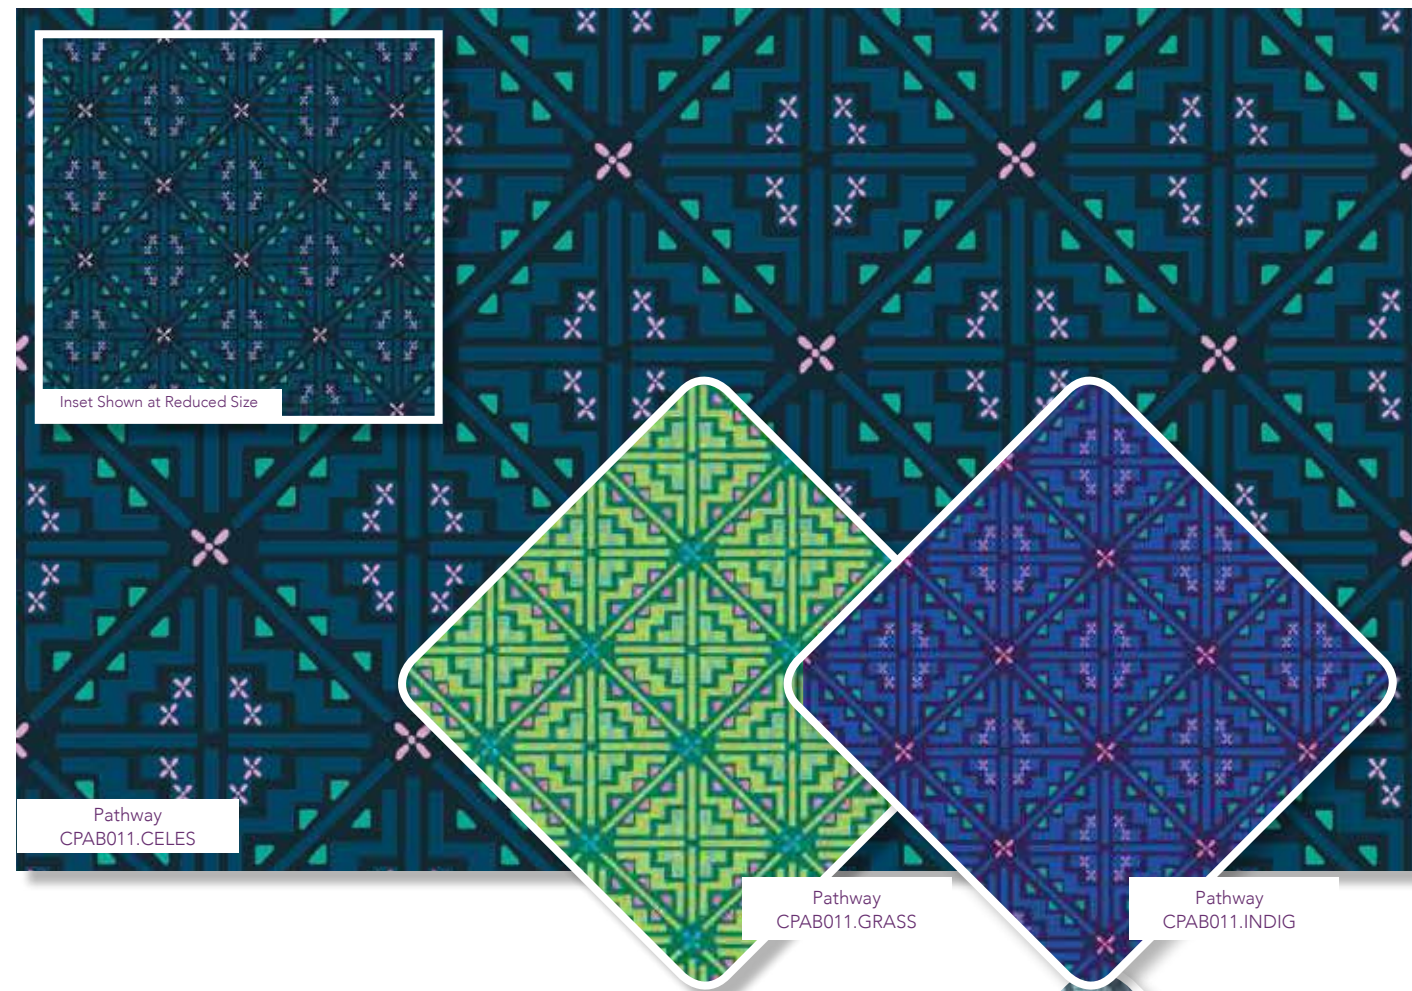

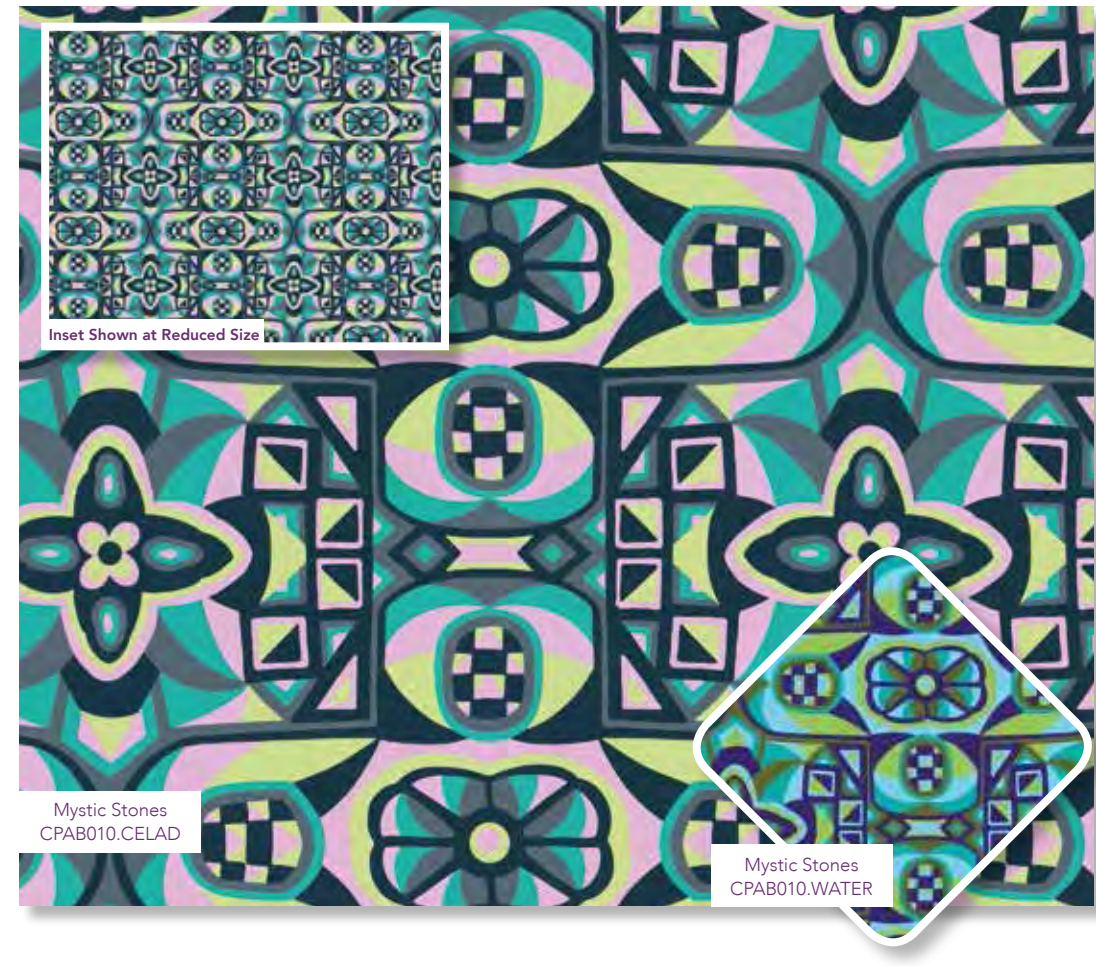

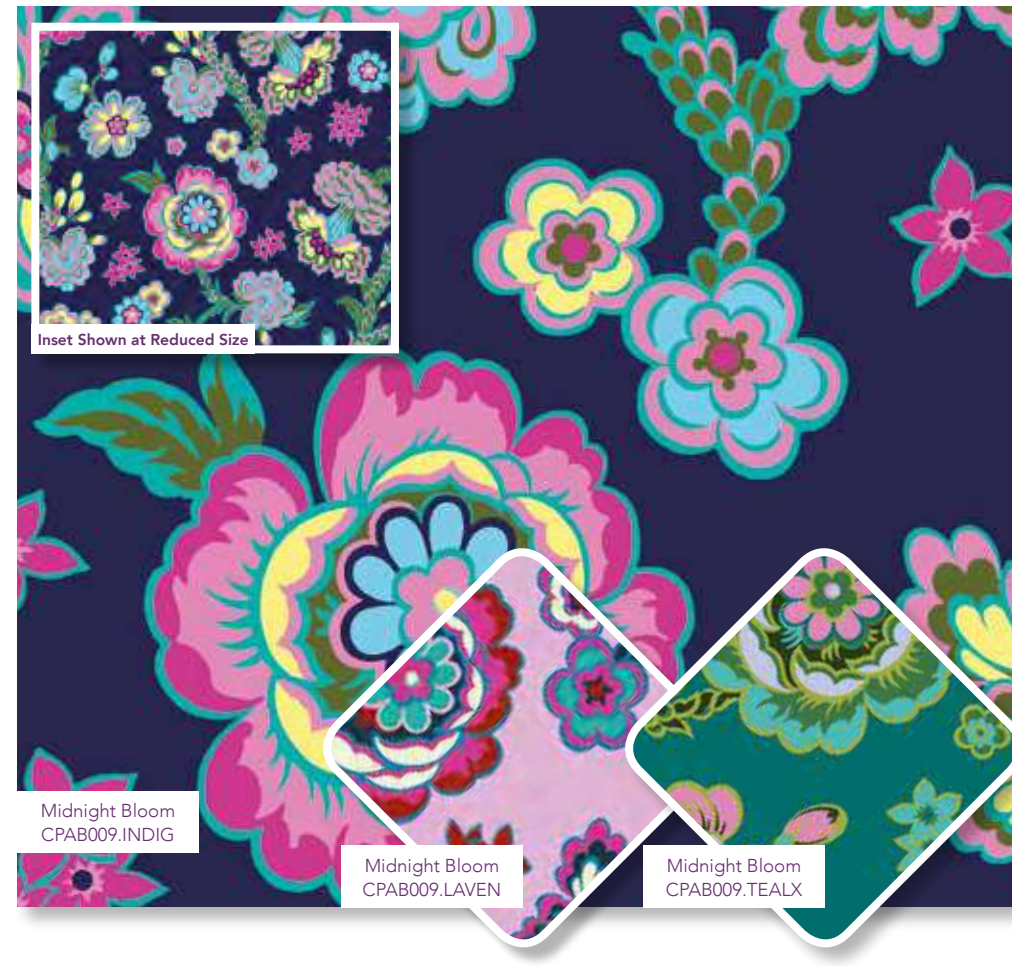

by AMY BUTLER

Night Music | Amy Butler
Pre Order • JAN 1 2018 | Ship • FEB 1 2018

A little bit of mythology and a lot of magic inspires my Night Music collection. Folklore from the Gond tribe in central India says that during the day the natural world is busy taking care of the needs of everyone, and that at night the luminous spirits from the forest come alive.

They believe that all of life is magical and integrated, and all aspects of the natural world are inseparable. This idea is both mysterious and charming and connects us to the seen and the unseen bringing about a positive feeling in being a part of the natural world. Night Music flourishes and decorative details weave together to create a beautifully imagined story.

Sweet Dreams

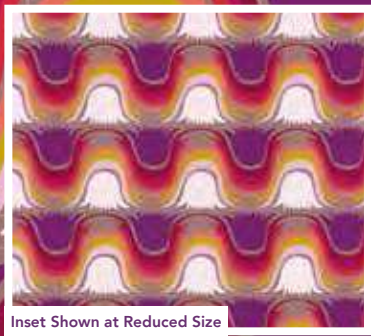

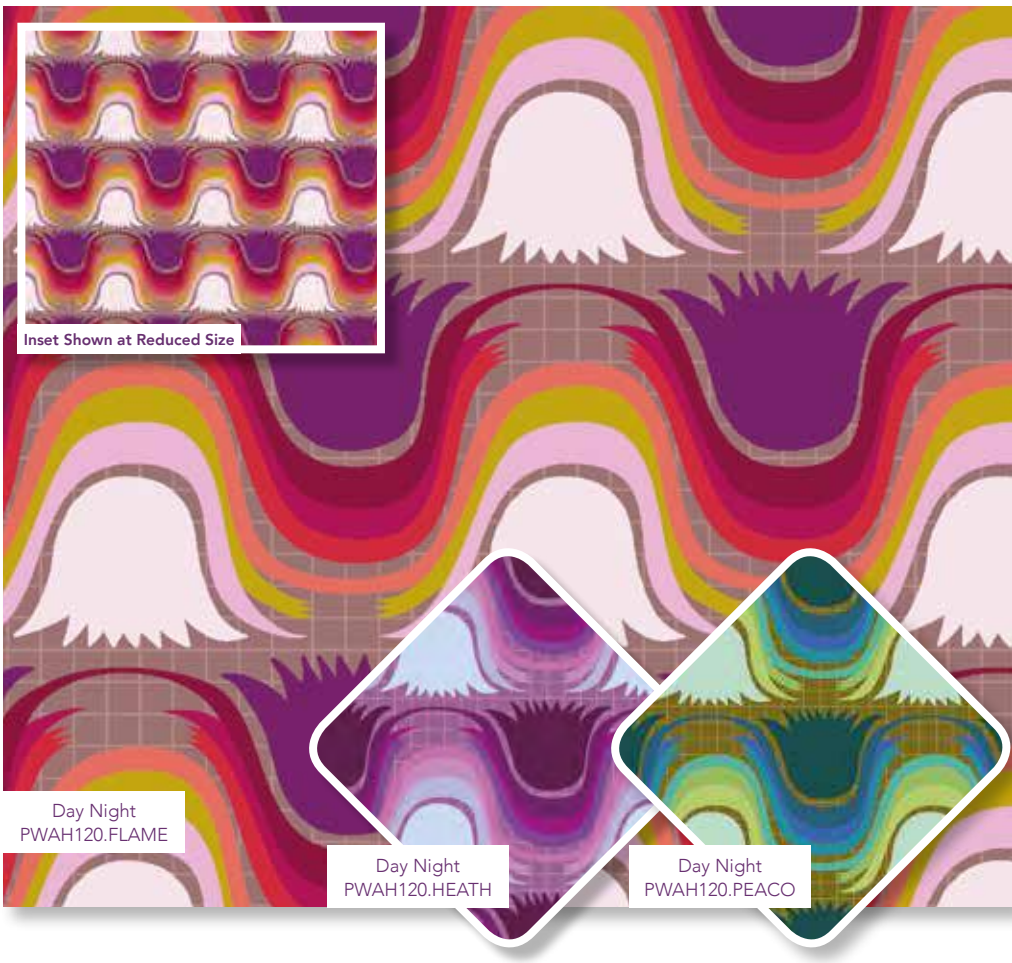

Sweet Dreams

BY ©ANNA MARIA

Sweet Dreams | Anna Maria Horner
Pre Order • FEB 1 2018 | Ship •MAR 1 2018

Sweet Dreams is a collection based on the beautiful sights, sounds, and inspirations discovered during my travels across Australia. A slow walk through a botanical garden in Perth, runs along Brighton Beach, several evening strolls along the river in Melbourne, awakening to amazing bird calls in Bowral, a century of time in an Aboriginal art gallery, wading through the Indian Ocean, and thinking of my family sleeping on the other side of the world, while awake in this new one... all unforgettable images and feelings that I am so happy have permanent residence in these fabrics.

The art for this collection is full of native flora, fauna and design elements colored with evocative and raw palettes that nod to the culturally exotic and diverse influences of Australia. In my weeks there, I treasured opportunities to absorb the energy, joy and beauty of many creative quilters and better understand how their gorgeous surroundings influence their work. My interactions with them in creating patchwork and handwork contributed so much to how I envision using these fabrics for patchwork, fussing cutting, borders, applique, needlework and stunning feature uses in garments and accessories. I hope this collection is an appropriate thanks to everyone who contributed to such a beautiful experience.

Peacock Paradise

Peacock Paradise

Peacock Paradise | Corinne Haig
Pre Order • MAY 1 2018 | Ship • JUN 1 2018

I have always been fascinated by peacocks and was thrilled with the opportunity to paint them! Peacocks are one of the most stunning ornamental birds in the world. The males, in particular, appear so confident and opulent. It is a stunning sight to see a male peacock fan their feathers in all their glory!

I really enjoyed painting the Peacock Paradise collection and feel that the watercolors captured the exotic quality of the peacocks, feathers, geometrics, and florals.

I painted this collection in jewel tones of blues and pinks. The blues range in shades of purple, royal blue, turquoise, and teal. The pinks range from all shades of pink, to magenta and burgundy.

These colorful patterns can be mixed and matched into endless combinations and I am excited to see the many beautiful and creative ways you design your projects with the Peacock Paradise collection!

Horizons | Kathy Doughty
Pre Order • FEB 1 2018 | Ship •MAR 1 2018

Travel in your mind to the horizon... where the earth meets the sky... where the familiar morphs into the universe... where discovery abides and possibilities are limitless. Powered by the sun, the Australian horizon inspired me to create mood in a glance with light lines and shadow, vibrant color and dusty dream shades. The outback is a unique world where the key element is contrast. Step in and share this place filled with surprises... birds that do not fly and trees filled with water! The expansive land is dotted with purpose-built structures that draw life from the earth. Fencing checkers the landscape aiming to keep some things in and some things out! Horizons, a collection that is dynamic, diverse and useful in hue, scale and dimension. Enjoy an imaginary trip you can enjoy in the comfort of your own sewing station!

Pre Order • JAN 1 2018 | Ship • FEB 2 2018

The Garden Dreams collection is inspired by the process and joy of gathering beautiful flowers and plants. I find it so inspiring to see how a flower transcends a quality of uniqueness through colorful hues, scale and form. A garden also invites wildlife and birds to gather amongst the blooms creating a playful environment. Several patterns in this collection were designed to capture a feeling of abundance while others were created to exhibit uniformity and calmness. From vibrant lavenders and pinks to cool blues and greens there are plenty of colors to choose from. Together they create harmony that offer many opportunities to develop a range of special sewing projects.

All Stars ALL STARS TULA PINK

All Stars | Tula Pink
Pre Order • MAR 1 2018 | Ship • APR 1 2018

I have told many stories of animal adventures across dozens of fabric collections. In each story there is a character that stands out from the crowd. These characters have become like friends over the years, I reach for them again and again when starting a new project. As these prints have come and gone I find myself reaching for them and then pulling back, afraid to use the last bits of fabric that I have for fear of finding one day that they are extinct. I don't think that I am alone in this.

For those who have hoarded older prints for years and for those who discovered that sewing was in their blood just a bit too late, I have selected the most coveted and elusive prints from my archive and given them a color make over. In a dizzying array of spectral brilliance I offer you a collection of fabrics where every print is a star, a dream team of critters. Even the best players need support so I have paired these decadent prints with a collection of Pom Poms to cheer them on. The Pom Poms serve as a color interlude that highlight the best that each print has to offer. The only way to truly honor a coveted piece of fabric is to use it, to sew it, to quilt it into something worth saving.

Peach blossoms, in their riot of color, caught my eye when I was a little girl growing up in Georgia. Their velvety bursts of pink, salmon, and fuchsia painted the land and held the promise of a sweet, sticky heaven to come.

When we lived in a place with so many stories, my dad, a professor of military history, told us tales of how these treasured quilts were passed down through generations and used as signals for those escaping bondage. He painted that picture in my mind and made me want to create beauty with a needle and thread to connect to the past in that way. We moved every two years, and each new place had new sights and stories that made me dream in color.

When I grew up and had my own family, I knew I wanted to put down roots and plant as many flowers as possible to surround myself with all the colors of my childhood. I began to paint those hues and those dreams. With each of my fabrics, I want you to be able to create treasures inspired by your own stories and to surround yourself with color and good memories.

“They say that every possibility begins with the courage to imagine, and seeing my designs come to life as fabric is beyond my imagination. The inspiration for ‘Eclectic Elements’ was to combine the nostalgia of timeless elements with the texture and creative versatility of fabric. This unique combination of salvaged findings and a vintage palette creates a collection to inspire your artful imagination. I believe creativity is not in the finding of a thing, but the making something out of it after it is found. Remember life isn’t about finding yourself – life is about creating yourself...”
